

QA Engineer

Location Katowice

Imagine that you are...

- part of an Agile team
- working on Legal Technologies and Data Recovery Solutions
- working WITH **your** manager, not FOR them
- enriching the system with new capabilities and tweaking existing solutions with outside-of-the box features
- using English every day in communication with KLDDiscovery Ontrack employees in the US, UK and Japan

REQUIREMENTS

- At least 2 years of experience in Quality Assurance in Agile web-based projects
- At least 1 year of experience in automation frameworks (i.e. Selenium, Coded UI, SpecFlow) and C#
- Product testing resulting in pass/fail metrics
- Focus on continuous improvements
- Good knowledge of English & communication skills
- Analytical capabilities
- Ability to learn and to share knowledge
- Being a team player

NICE TO HAVE

- Definition of the scope of testing needed for apps; definition and implementation of QA methodologies in all app areas, gathering of testing metrics
- Service Oriented Architecture; T-SQL, GIT, Azure DevOps or similar platforms
- Linux; working with containers such as Docker
- CI/CD, building and maintaining release pipelines

WE OFFER

Mentoring program and language lessons

Ability to develop your skills (trainings, conferences, books and more)

Good coffee, Sweet Mondays

Fun and friendly atmosphere

Attractive package of benefits, i.e. contribution of costs of a private medical care (Medicover) and a sports card (Multisport)

Company lunches every Thursday

Don't hesitate!

Send us your resume and cover letter in English to: praca@kldiscovery.com
